

Senior iOS Developer

DUBLIN, IRELAND

PRESENTED TO YOU BY i-RECRUIT

Overview

We are looking for a Senior iOS Developer for our client, a FTSE 100 and Fortune 500 listed company, to work in an ostensibly remote role with the main base of operations in Sofia.

You will work on outstanding mobile games that are enjoyed by millions of players all over the world. You will work with experienced teams who have a proven track record of delivering best of breed software for the online gaming market.

Working closely with the Product Development and Graphics/UI design teams you will translate business requirements and innovative UI design concepts into industry leading client software that will be used by a vast player base.

Collaborating with the Mobile iOS manager, you will participate in delivering applications to millions of players all over the world.

Together with your team members, you will take the responsibility of testing the applications under development.

Requirements

Essential

- Deep understanding of Computer Science fundamentals (OOP, data structures, algorithms)
- Expert with Swift, Objective-C and the iOS Platform
- Experience working with UIKit, Interface Builder, Core Animation, GCD
- Proficiency with Git version control
- Experience in performance profiling with Instruments on Xcode
- Experience with JSON, REST, Web sockets, Unit testing
- Meaningful professional experience as an iOS developer
- Ability to develop and maintain high code quality
- Experience in most or all of the following technologies Objective-C, Swift, JSON, REST, Web Sockets
- Solid grasp of object-oriented design patterns and methodologies

Desirable

- Understanding of poker, sports book and casino games
- Familiarity with the online gaming Industry
- Experience developing client/server applications

Responsibilities

You will be able to demonstrate your ability to work with local and remote teams, as well as being able to work on your own initiative, all in a fast paced highly multifaceted working environment.

Key Responsibilities

- Designing and maintaining a suite of mobile online gaming clients across a diverse set of mobile technologies
- Connect with Stakeholders, gathering business requirements and translating them into technical solutions
- Deliver high quality software and provide support to our QA teams
- Contribute to planning and prioritization of development activities and provide technical estimates

The Package

You wouldn't expect us to disclose the salary range at this early stage, but we're very confident that we'll meet your expectations. Our client understands the value of rewarding staff well, and has constructed a superb package. There's also a significant annual discretionary bonus.

And that's just for starters.

You'll get medical and dental cover for you and your immediate family. You'll get a personal interest allowance to encourage you to pursue a hobby away from the workplace. Work is important, but so is life. If you have a baby - as a mother or father - whilst in work, you'll be given 1000 BGN to celebrate and buy the essentials. That's a lot of nappies!

You'll be given plenty of opportunity to develop your skills and qualifications with plenty of support. And once the World gets back to something like normal, there are summer and Christmas parties and we told that they are quite the event...

Next...

If we've piqued your interest, we'd be happy to answer any questions that you may have. If you are happy to be considered, we'll need a CV, and after that, there'll be a telephone interview with the relevant personnel.

If both parties are happy, there will be a more formal interview where your technical experience will be explored.

And if that goes well...welcome to your new job.

A bit about us

We have decades of experience of recruitment, business and commerce, and it shows. Trading since 2018, we're an independent and proud Irish company, working mainly within the tech sector across Bulgaria, Ireland and the UK. We have developed some very smart techniques for finding key staff for our portfolio of clients. It can be hard and laborious work, but it's really effective.

But you know that already, or you wouldn't be sitting there, reading this.

We treat our candidates with a great deal of respect, and because of this, we develop strong relationships with our ever-increasing database of talent.

We never forget that we are dealing with people who are making life changing decisions. We'd be *delighted* to help you on to the next stage of your career.
